CORONARY  
ARTERY DISEASE

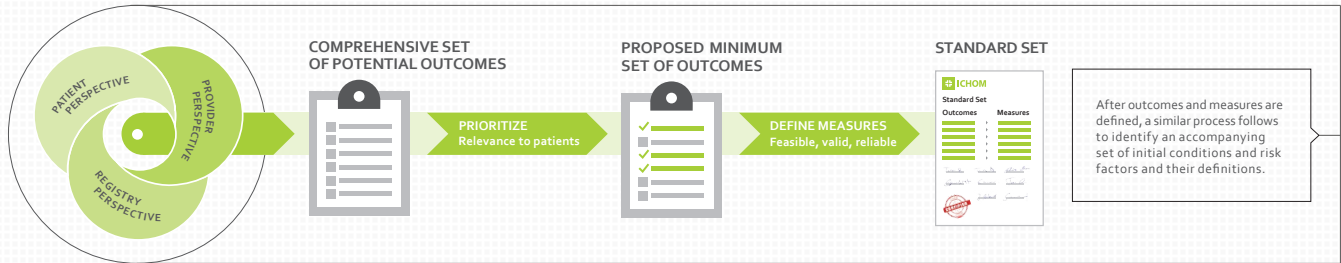

Revised: July 10th, 2015

# ICHOM Standard Set

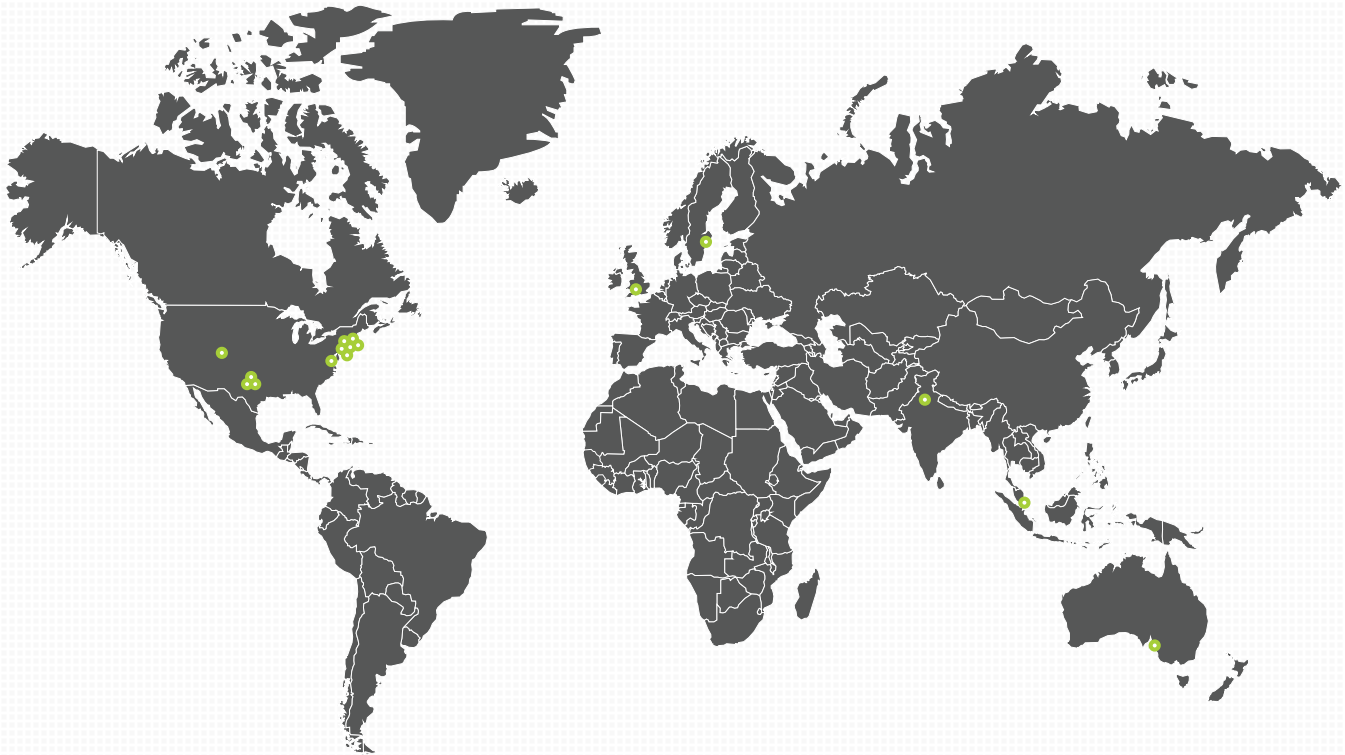

# APPROACH

The ICHOM Standard Set is the result of hard work by a group of leading physicians, measurement experts and patients together with the non-profit organization ICHOM. It represents the outcomes that matter most to patients with coronary artery disease. We urge all providers around the world to start measuring these outcomes to better understand how to improve the lives of the patients they serve.

## The Process

## The Working Group

### Australia

John Beltrame | Queen Elizabeth Hospital, Adelaide

### India

Bishnu Panigrahi | Fortis Healthcare

### Singapore

Terrance Chua Siang Jin | National Heart Centre

### Sweden

Tomas Jernberg | Swedeheart

### United Kingdom

Clive Weston | Myocardial Infarction National Audit Programme

### United States

Erica Spatz | Yale  
 Bob McNamara | Yale  
 Larry Sadwin\* | American Heart Association  
 Mark Schoeberl | American Heart Association  
 Louise Morgan | American Heart Association  
 David Shahian | Massachusetts General Hospital, Harvard Medical School

Robert Yeh | Massachusetts General Hospital  
 Jack Lewin | Cardiovascular Research Foundation  
 Paul Heidenreich | American Heart Association/American College of Cardiology  
 John Rumsfeld | Veterans Health Administration  
 Robert Jesse | Veterans Health Administration
